

Local Hire Shop- Covid 19 update

To our loyal customers,

As the Covid 19 situation continues to evolve, we are continuing to support our essential services customers- in particular the building and construction industry, as well as government and emergency services- with the supply of hire equipment. Local Hire Shop and its' staff are exceeding all recommended and required social distancing, sanitising and safety precautions as set out by the relevant Health and Government authorities. Staff and customer health and safety is first and foremost, and as such any customers requiring equipment can also request delivery to site if preferred- just contact us to discuss. Local Hire Shop encourages supporting local industry and businesses in this difficult period- however we are keeping abreast of the latest Government announcements and will act on any decisions and directives accordingly.

Best wishes to you all,

Oliver and the team at Local Hire Shop
